More reference styles in Mendeley MS Word plug-in.

If you need a reference style that is not part of the default package in MS Word, you can add it through Mendeley Desktop:

1. Open Mendeley Desktop -> View -> Citation-styles -> More Styles...

2. Select the Get More Styles tab in the pop-up window and search for the style you need.
3. Highlight the style and click Install.

![Image of citation style installation process]

The style will now be marked as Installed

4. Go to the **Installed** tab, select the relevant style, and click **Use this Style** -> **Done**

![Image of using installed citation style]
The style is now available from the **Style** dropdown in MS Word.
